**DETAILED ACTION**

***Response to Amendment***

1. The applicant(s) amendments filed on 2/6/04 and 5/5/04 have been fully considered and made of record. The amendment has necessitated the following action.

***Election/Restrictions***

2. This application contains claims directed to the following patentably distinct species of the claimed invention.

**Species A**, directed to weaving a wrapped thread to serve as part of the weave of the cloth in place of an unwrapped thread, Claim 1;

**Species B**, directed to weaving the wrapped thread as a flex locus, Claims 2-17 and 19;

**Species C**, directed to a structural joint, Claim 18;

**Species D**, directed to weaving a thread wrapped with an electrical conductor into a woven cloth at a single shed or course of the cloth, Claims 28-33; and

**Species E**, directed to treating a woven cloth with a second substance, Claims 34-37.

It is noted that with respect to each of the independent Claims 1, 2, 18, 28 and 34, the features recited in each group above are mutually exclusive from each other.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3729

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
